

> **Adriatic LNG Terminal, Italy**

Description	Insulation of two huge steel tanks deposited 30 meters below the surface of the Adriatic
Location	Adriatic Sea, 17 km off the Italian coast near Venice
Time frame	2007 - 2008
Client	Aker Kvaerner
Order volume	13 million euros
KAEFER services	Insulation of floor, walls, ceilings and pipelines
Challenges	High strains on materials due to the location of the tanks under water.
Our solution	Innovative materials and optimised insulation concepts
Advantages for the client	KAEFER's high-quality insulation ensures safe operations even under these extreme conditions
